Urban Wildlife Tips

Keeping Pets & People Safe

Restrain your pets

- Always walk dogs on a leash and do not allow cats to roam free outdoors. In general, do not leave pets unattended outdoors.

Vaccinate your pets

- Wildlife may transmit disease to cats and dogs.

Teach children about natural wildlife

- Let them know that wildlife lives in the area and that they should leave wildlife alone.

Trim back vegetation and clean up brushy areas or woodpiles

- Remove food sources like fallen fruit, bird seed and pet food.

Keep trash in a secure container

Make noise if you see wildlife

- Yell or clap loudly to scare wildlife away; carry something with you to make noise.

Immediately report sightings of wildlife approaching humans or that appear to be injured

- Contact Frisco Animal Services at 972-292-6010. Report healthy wildlife to the DFW Wildlife Coalition Hotline: 972-234-WILD.

Will Animal Services respond to wildlife call?

- Animal Services Officers will respond and advise residents about what actions they can take with respect to the area's wildlife.

Why not trap and relocate wildlife to the country?

- Relocating animals simply leaves a "vacancy sign", inviting other wild animals to move in.
- The City of Frisco will not trap and relocate an animal unless that animal is sick or injured.
- Wildlife is part of our environment.
