

Safe Baby Site

Dear Birth Mother / Parent

Thank you for considering bringing your baby to the fire station. No matter what difficulties you are going through, you still chose to bring your child to a safe place. Thank You. Please know that we will do everything we can to care for your beautiful child in accordance with the "Baby Moses Law."

The Baby Moses Law

The "Baby Moses Law" is the common name of a law authorizing a designated emergency infant care provider to take possession of a child who appears to be 60 days old or younger if the child is voluntarily delivered to the care provider by the child's parent and the parent did not express an intent to return for the child. You can find this law in the [Texas Family Code, Chapter 262, Subchapter D](#), "Emergency Possession of Certain Abandoned Children."

Law Purpose

One purpose of the law is to encourage parents who wish to abandon their children to do so with a designated emergency infant care provider rather than at a dangerous location. The law also protects parents from criminal prosecution when they deliver a child 60 days old or younger who is unharmed to a designated emergency infant care provider.

Medical Problems

When you place your child in our custody, we will offer you a voluntary form to fill out and provide medical information for your child. You do not have to provide your name or any information that you do not wish to share. The packet has a self-address stamped envelope, so you may mail it at your convenience.

Contact Us

Please use the link below for a list of Frisco Fire Stations. We can be contacted 24 hours a day, seven days a week at one of the listed locations.
