FriscoTexas.gov/Wildlife

Keeping pets and people safe:

- **Restrain your pets:** always walk dogs on a leash and do not allow cats to roam free outdoors. In general, do not leave pets unattended outdoors.
- **Vaccinate pets.** Wildlife may transmit disease to cats and dogs.
- **Teach children about natural wildlife** in the area, wildlife behavior, and that they should leave wildlife alone.
- **Trim back vegetation and clean up brushy areas or woodpiles** in your yard. Remove food sources like fallen fruit, bird seed and pet food.
- **Keep trash in a secure container.**
- **Immediately report sightings of wildlife that appear to be injured or approaching humans.** Contact Frisco Animal Services by calling Frisco Police Dispatch at 972-292-6010. Report non-emergency sightings at FriscoTexas.gov/Coyote.
- **Make noise if you see a bobcat or coyote.** Yell or clap loudly to scare wildlife away; carry something with you to make noise.

Why not trap and relocate bobcats to the country?

- Relocating animals simply leaves a "*vacancy sign*", inviting other wild animals to move in.
- The City of Frisco will not trap and relocate an animal unless that animal is sick or injured.

Will Animal Services Respond to Wildlife Calls?

Animal Services Officers will respond to advise residents about what actions they can take.

- We do not trap and relocate an animal unless that animal is sick or injured. Wildlife is part of our environment.
