

## SETTING YOUR CONTROLLER - QUICK GLANCE

Advice Amount	Programming Examples for Pop-up Sprinkler Heads
0"	No watering is necessary. Turn your sprinkler system to the OFF position.
0.25"	Set your controller to water each zone for no more than 6 minutes for 2 consecutive watering cycles on your Trash/Recycle Pick-up day.
0.50"	Set your controller to water each zone for no more than 6 minutes for 4 consecutive watering cycles on your Trash/Recycle Pick-up day.
0.75"	Use a combination of the above two programming schedules.
1"	Use the 0.50" example twice. Schedule one 0.50" program for the morning, and the other during the late evening hours.

*\*Due to the low water-infiltration rate of our soil, any water applied after roughly 6 minutes becomes run-off.*
