

Frisco Fire Department – Fire Prevention Office

Building and Security Control Systems-Egress Control Devices Inspection

The Building Security Control Systems-Egress Control Devices Inspection occurs at the Fire Final. Please reference Fire Final Inspection requirements.

The Building Security Control Systems-Egress Control Devices Inspection shall include, but not be limited to, the following:

- Must be requested by the installing contractor.
- Must be permitted through the Fire Prevention Office.
- Must meet all requirements of the City of Frisco and the 2015 International Fire Code, Chapter 10, Means of Egress.
