

Drone Delivery is Coming to Dallas-Fort Worth!

Wing is an aviation company that provides drone delivery as a faster, safer, and cleaner way to transport everyday goods. The company has built a small, lightweight, electric aircraft that can deliver food, medicine, and household items directly to homes in minutes.

Why Wing drone delivery?

SAFETY Wing has flown more than 200,000 flights to confirm the safety of our operations — safety is our highest priority.

PRIVACY There is no live feed of any imagery to anyone, including pilots overseeing operations. Cameras on board are low resolution.

ENVIRONMENTAL When a customer orders a box of pasta from Wing, they use more energy boiling the water than we use delivering the product.

CONGESTION Drone deliveries can replace some trips to the store, meaning fewer vehicles on the roadways and less traffic on local streets.

SERVICE Customers typically receive their orders within about 10 minutes of pressing order.

ECONOMIC Drones can help connect businesses and customers, enabling local shops to expand their footprint for delivery and serve a wider population.
